SWISS MADE

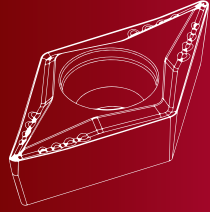

SWISS MACHINING

High Precision Inserts Line

THE NEW DCGT & VCGT POSITIVE TURNING SERIES

-  Swiss-Engineered Geometries
Proven DCGT & VCGT families
-  Sub-Micron Carbide
High-performance grade for all materials
-  Full Range
With radiuses going down to 0.05 (Full Ground)
-  Unique Chip Breakers
Low vibration, superior chip control
-  Patented PVD Coatings
Unparalleled life in tough conditions

SWISS MACHINING

GRADE

- UN 110 - Sub-Micron & PVD

INSERTS

- DCGT 11T3005 PP UN110
- DCGT 11T301 PP UN110
- DCGT 11T302 PP UN110
- DCGT 11T304 PP UN110
- VC GT 1103005 PP UN110
- VCG T 110301 PP UN110
- VC GT 110302 PP UN110
- VC GT 110304 PP UN110

FEATURES

- High-Precision Positive Geometries
- Peripherally Ground Small Radii
- Sharp Chip-Breakers
- Versatile for a Wide Range of Materials
- Hyper-Pulsed PVD Coating
- Full Customer Application Support
